

# Comics server

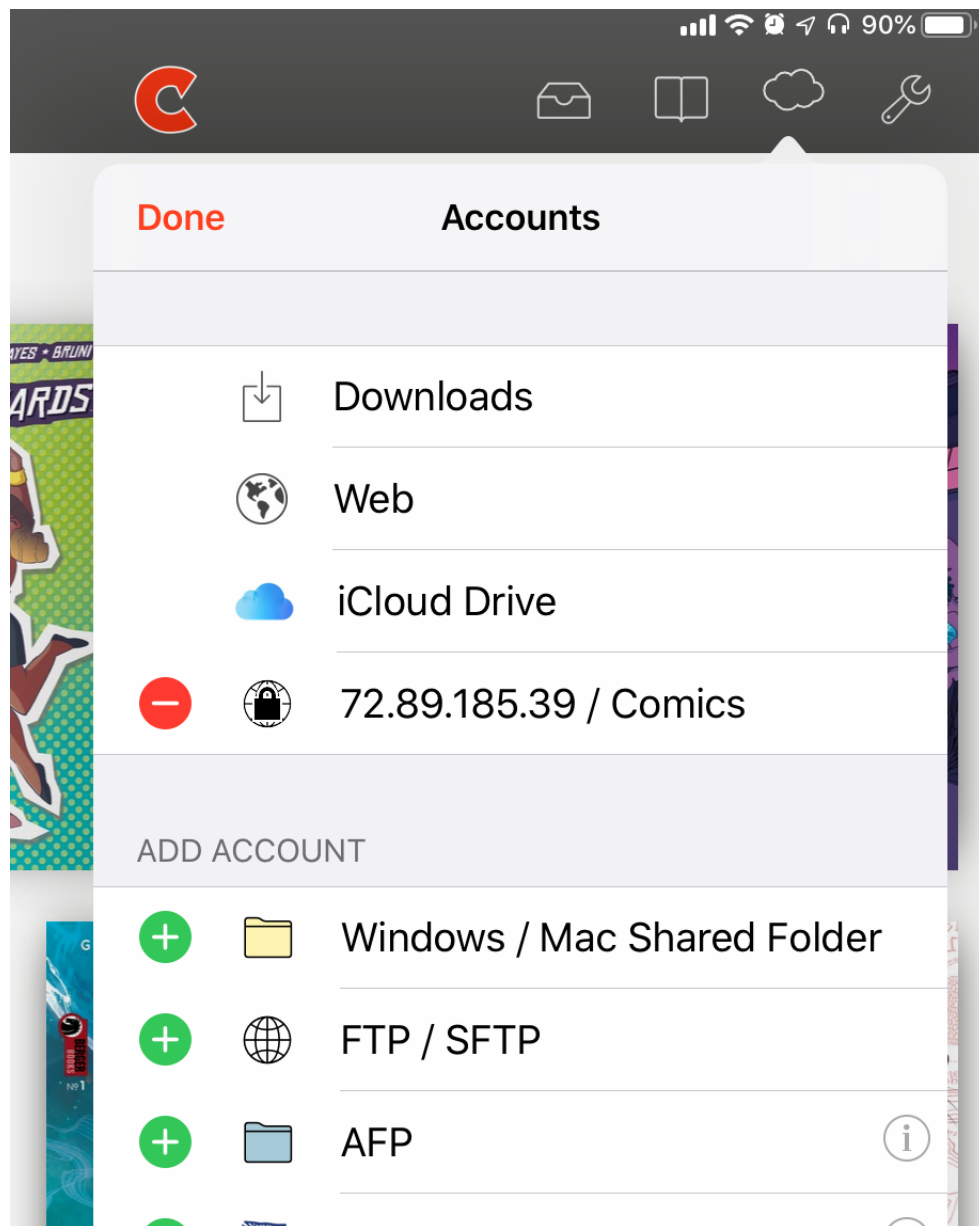

i'm giving you login and password coz it's read-only, so no biggie. If anything we can do it together. It's one-time setup.

## connect with server (do it once)

go to chunky, click on cloud icon, top left.

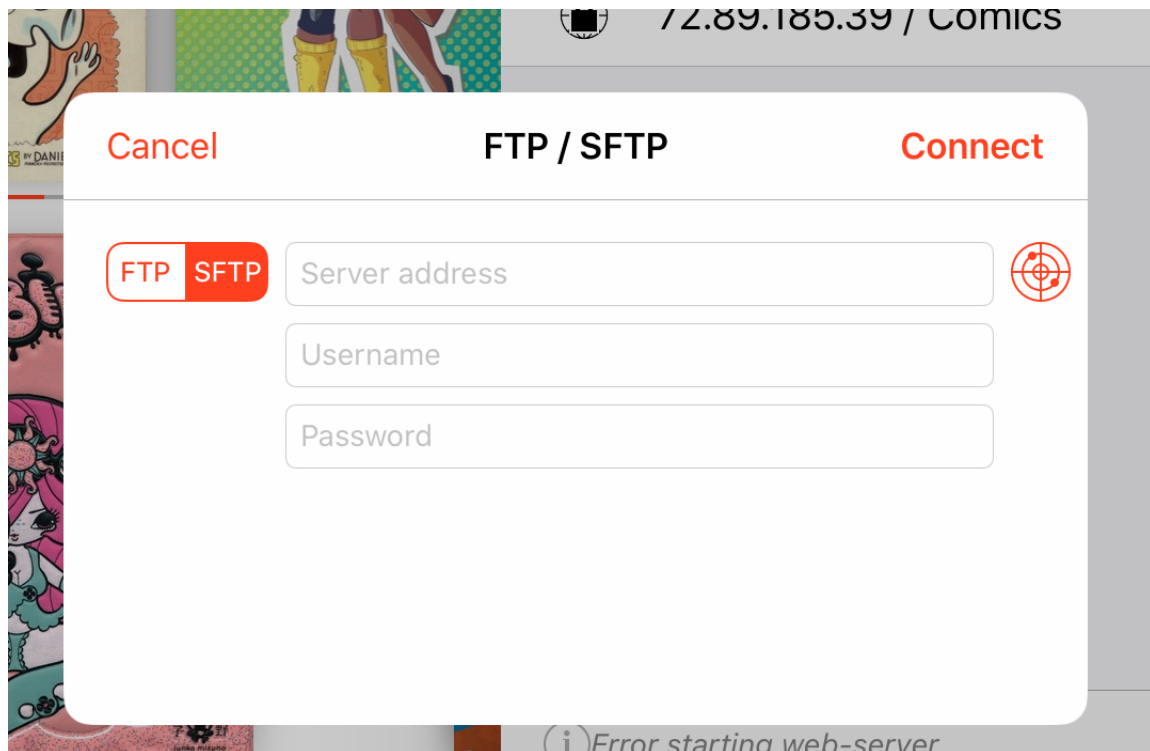

click on plus, other options will appear.

click on + on FTP/SFTP

on modal, choose sftp

Then you have access to all my comics. it's more than you have time to read, and i dunno your taste, so I dunno what to do here. It's a nice problem to have.

## To read offline

You need to go to folder and download each comic individually. And chunky needs to be running for download to happen.

Once it's downloaded, it's a copy, feel free to delete when done.

## List of comics

I dunno now, maybe we can talk about your tastes and what fits. We like diff things. I think you'll like Arcadia.
